The commissary is a base of operations for most Special Event Vendors that operate multiple days at an event. Each vendor is required to operate from an approved commissary and report daily for all supplies, cleaning and servicing operations. Each commissary is required to be constructed and operated in compliance with the requirements of the Maricopa County Environmental Health Code. Depending on the needs of the establishment, commissaries may have different services available. In general, commissaries are used to carry out the following services: Food Storage, Food Preparation, Ware washing Facilities, Garbage Refuse, Fresh water Supply, Waste water Disposal. Vendors that do not use a commissary for multiple day operations must purchase their hazardous food items fresh daily and provide receipts upon request.
